Salient features of the Institution

Jupiter Institutions was started in 2004 with the purpose of bringing out good quality Nursing Professionals. As there is big demand for Nurses & Paramedics all over the world, especially after this Covid-19 Pandemic & this demand is going to remain for the next 10 years at least, we at our Institution are hopeful of satisfying a part of that demand. Our campus is spread across 2 acres in an elevated area near Nelamangala and has become a landmark of its own. The campus offers safety to all the students. Special emphasis is given to the hostel and mess facilities to suit the requirements of all the students. We have students from Karnataka, West Bengal, North East States & Maharashtra. In 2019, we started Paramedical, Allied Health Science & Physiotherapy Courses. We provide placement to our students in India as well as abroad.

Profile of the Parent Hospital

28, 7th Main, 9th Cross, Malleswaram, Bangalore-560 003.
